

How to be a good Steward of God's Earth

Genesis 2

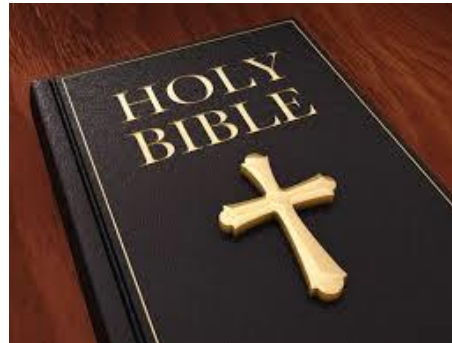

Laudato Si

By Tom

Genesis 2

Genesis 2 is a creation story. It is in the beginning of the bible. It's about Yahweh (God) creating the world. He made humans in his image. God said we should "till and keep". We should care the earth like a mother. In the Bible it says that "A stream flowed in Eden and watered the gardens" similar people help the earth by watering plants. God made everyone like Himself so we should act like Him.

What does Stewardship teaches us in Genesis2?

It teaches us that we should care of the earth. We could help each other because God asked us to take care of the world. God gave us “dominion” means we have control over the Earth. Also we should treat the world as a good friend.

Laudato Si

Laudato Si is a letter from the Pope. Laudato Si means Praise Be. It was written in May 2015. The letter is from Pope Francis. Since “the book of nature is one and indivisible,” and includes the environment, life, family, social relations and so forth.

What does Laudato Si teaches us about Stewardship?

It teaches us that the earth is the mother and she is crying because the people are littering on her face. Pope Francis means we should care for the earth as a real mother.

Someone who cares for the Earth

My dad cares for the Earth by putting out the rubbish. He also waters the plants when he comes back from work. My dad is a steward of the earth.

What could I do for the Earth?

I could put the rubbish out before my dad gets home because my dad comes out in the dark. If you see rubbish on the street pick it up and put it the bin. I could walk to school or ride a bike.

Thank You for reading!
